MEXICAN COMMUNIST PARTY  
Federal District Committee

Mexico D.F., 20 April 1949

GENERAL WORKING PLAN UNTIL 16 SEPTEMBER  
TO ALL THE COMMUNIST PARTY CELLS IN THE FEDERAL DISTRICT

## COMRADES:

In a meeting held the 12th of this month by the members of the Federal District Committee, our Working Plan for the period up to next 16 September was devised. It was made up according to the agreements reached in our last Congress and the Guide established by the Secretary of Organization of our Central Committee.

This Plan has been examined and approved by the Secretaries General and the Secretaries of Organization and Finance of the Cells in a meeting held on Tuesday, 19 April. As you can see, it is not an ambitious plan or beyond the capacities of the Party organization in the Federal District, but it does mean intense, enthusiastic and daily work, and an important effort on the part of Federal District Communists. It is clear, nevertheless, that the Plan can be realized and even exceeded, depending on the degree to which the Party and its directors adopt and apply methods of work and organization which will move each comrade to an enthusiastic and efficient accomplishment of his tasks.

## THE PLAN CONSISTS OF THE FOLLOWING:

1. All our members in the Federal District must change to the new carnet. This resolution has now been accomplished, and this week the forms for the change of carnets will be delivered to the Cell leaders. This task should be finished by 30 April.
2. The amount of money taken in as dues, which at present is about 70 to 75 pesos a month on the average, must be raised to a monthly average of 100 pesos.
3. We must cooperate economically in the maintenance of the Central Committee. We have agreed to give the Secretary of Finances of the Central Committee the monthly sum of 200 pesos, and give 150 pesos more to a comrade who will take charge of cleaning the Federal District offices. The first sum will be in cash, for the purpose of helping to pay the rent of the premises used for headquarters.
4. In the period covered by this Plan, the Party's work in the Federal District will be concentrated on penetrating and forming 20 new Cells in the following industries:
  - a) Consolidada - Task to be accomplished by the Cell Francisco Villa under the direction of Comrade Abel Cabrera.
  - b) El Anfora - Task to be accomplished by the Cell 20 de Noviembre under the direction of Comrade Pedro Lopez Mendez.

11. In this same period, we will hold 25 meetings. The dates of these meetings will be fixed by the Federal District Committee, according to the development of our electoral campaign and whatever circumstances may arise.

12. The various auxiliary committees of the Secretaries of the Federal District will be set up.

13. The statistics on all Party members in the Federal District will be completed as soon as possible.

14. A minimum number of 25 women must be recruited.

15. A fraternal competition will be proposed to the State Committee of Nuevo Leon, or any other state committee that will accept it, to see which group can best achieve or exceed their working plan. A prize will be given by the losing committee to the winning one; judgment of the competition will be made by the National Organization Committee.

16. All the Cells should publish information bulletins to be distributed to workers, especially in the industries assigned as objectives.

These are the basic points comprising our Working Plan for the period ending 16 September. Each Cell of the Party will undoubtedly be enriched by the experience obtained in the practice of this Plan. Without overlooking the concrete directives given by the Federal District Committee in special cases, each Cell ought to work on its own initiative, remembering that only by daily, enthusiastic work and the application of adequate methods can we win the competition with our comrades in Nuevo Leon.

Fraternally,

PROLETARIAT OF ALL COUNTRIES, UNITE  
FOR THE FEDERAL DISTRICT COMMITTEE
